Good afternoon. Could you please email me the SSAC transgender policy (or policies if there are multiple) today and explain to me how I should view it – as an "internal policy" that really has no effect, as a recommendation but not an actual rule, as an actual rule, etc.?

I'm confused on how to view it because senators debated on the floor today about whether it's merely some internal policy that doesn't actually have effect or something. You can reach me on the cell below.

Thank you,
